

Protect Your Home with Real-Time Leak Monitoring

AWTOS helps you minimize water leaks before they become disasters

AWTOS (Automatic Water Turn-Off System) helps protect your home by monitoring water flow in real time and automatically turns off your water if a leak is detected— helping mitigate water damage. As a policy holder, after installing AWTOS you can save up to 15% (capped at \$300) per year on your home insurance premium.

We believe in the protection that AWTOS provides — that's why we'll also remove the water damage sublimit after the AWTOS device is connected to the AWTOS Cloud and activated, and proof of installation is approved.

Exclusive Benefits for Orion180 Policyholders:

- ✓ Up to 15% premium discount (capped at \$300)*
- ✓ Water damage sublimit removed*
- ✓ \$299 for device and 3 sensors (Retail Price is \$599)**
- ✓ Access to the mobile app; \$120/year subscription

*Coverage updates and discounts are applied after the AWTOS device is connected to the AWTOS Cloud and activated, and proof of installation is approved.

**The cost of the devices does not include the cost of installation; the policyholder is responsible for finding a licensed plumber to install AWTOS and submitting proof of installation.

What Is AWTOS?

AWTOS (Automatic Water Turn-Off System) is a smart home safety device that helps protect your property from one of the most common and costly threats to homeowners: non-weather water damage.

Non-weather water damage accounts for nearly 1 in 4 home insurance claims and costs U.S. homeowners over **\$20 billion annually**. Even a slow, undetected leak—like one under a sink or behind a wall—can lead to extensive damage, mold, and claims averaging over \$11,000 per incident.

AWTOS is built to mitigate those losses before they become disasters.

Real-Time Leak Monitoring with the AWTOS App

1

Monitor water temperature, pressure, flow rate, total water consumption, and valve status.

4

Set additional alarms for high water usage, pressure changes, and temperature fluctuations.

2

When a leak is detected, the system automatically shuts off your water and the app sends you an alert.

5

Group sharing available.

3

Access historical data.

6

Quick and simple setup via your home's Wi-Fi network.

The AWTOS app gives you peace of mind, knowing you'll be alerted to any leak concerns and water system changes — no matter where you are.
